TECHNICAL EXPERTISE

Languages
TypeScript · JavaScript · PHP · SQL · HTML5 · CSS3

Frontend
React · Next.js (App Router) · Tailwind CSS · accessible UI (WCAG)

Backend & Data
Node.js · REST APIs · MySQL · SQL Server · multi-tenant schemas

Cloud & DevOps
Vercel · Git/GitHub · CI-tested deploys (Vitest, PHPUnit) · DNS & domains

Integrations
Stripe & Stripe Connect · Resend/PHPMailer email · mobile-money payments

Security
RBAC · tenant isolation · audit logging · secure auth · CSP/security headers

CERTIFICATIONS

- CompTIA A+ · 2023
- CompTIA Security+ · in progress
- U.S. Army Airborne School
- Hazmat Certifier · U.S. Army
- Unit Prevention Leader · U.S. Army
- Security Management (S2) · U.S. Army

EXECUTIVE SUMMARY

Full-stack software engineer and active-duty U.S. Army Sergeant with a B.S. in Information Technology (Software Development, **magna cum laude**) and four production web platforms designed, built, and operated end to end — a multi-tenant healthcare SaaS, an AI-powered financial-readiness platform for the military community, a small-business commerce platform, and a mobile-first insurance product. Security-first engineer: tenant isolation, role-based access control, audit trails. NCO leadership with accountability for people, \$3M in equipment, and mission outcomes.

CAREER HIGHLIGHTS

- ✓ **Founder & sole developer** of four production web platforms, live with real users and payments
- ✓ **Architected a multi-tenant healthcare SaaS** with database-level tenant isolation and audit trails
- ✓ **Built an AI-guided financial-readiness platform** serving the military community
- ✓ **Integrated Stripe subscriptions & Stripe Connect** marketplace payouts end to end
- ✓ **Active-duty Army NCO** — leads Soldiers with zero-loss accountability for \$3M in assets
- ✓ **B.S. in IT, magna cum laude** (Software Development), on an electrical-engineering foundation

PRODUCTION SOFTWARE — FOUNDER & SOLE DEVELOPER

MyVital Harmony · Multi-tenant healthcare & wellness SaaS myvitalharmony.com · **Live**

- Designed and deployed a multi-tenant platform where each business operates under its own brand, with database-level tenant isolation, role-based access (owners, providers, staff, clients), and append-only audit trails.
- Integrated Stripe subscriptions for platform billing and Stripe Connect for per-business payouts; shipped scheduling, secure client messaging, and digital programs on tiered plans (\$19–\$129/mo).
- Engineered for regulated workflows: encrypted health-data vault separated from operational data.

MyFreedomOps · AI financial readiness + personnel accountability myfreedomops.com · **Live**

- Built an AI-guided platform for the military community covering debt elimination, emergency savings, and credit — plus an accountability module giving unit leaders first-formation status roll-ups from Soldiers' self-reports. Independently developed; not affiliated with the U.S. Army or DoD.

Murielle Hair Braids · Client booking & e-commerce muriellehairbraids.com · **Live client production**

- Delivered a client's full digital storefront — service catalog with transparent pricing, online booking with deposits, product shop, admin dashboard, and local SEO — processing real bookings and payments.

Sedoinsurance · Mobile-first insurance platform (Benin) sedoinsurance.com · **Live**

- Built a bilingual (FR/EN) insurance platform — online quoting across four product lines, mobile-money payments, and phone-first claims — with policies issued through licensed partner insurers.

MILITARY LEADERSHIP

Sergeant (92F) — United States Army, Active Duty Fort Irwin, California · 2020 – Present

- Lead, train, and develop Soldiers; accountable for personnel readiness and \$3M in petroleum assets with zero-loss accountability.
- Unit Prevention Leader and Hazmat certifier — own compliance-grade documentation for hazardous-materials logistics and ammunition transport.
- Supported S2 (security) office IT operations: access control, SAAR processing, and secure documentation workflows.

EDUCATION

B.S. in Information Technology — Software Development Using Web Languages · **Magna Cum Laude** Purdue University Global · April 2026

Vocational Bachelor's — Electrical Engineering & Industrial Data Processing · **Upper Second-Class Honours** IUT Lokossa, Univ. of Abomey-Calavi · 2013

NACES-evaluated U.S. equivalency (SpanTran): 91.5 semester credits, 3.73/4.00 GPA — coursework incl. OOP, databases, computer architecture, Linux/Windows network administration.
